The DIMMER VIEW

by Max Goodwin

Reading is Informative

Holiday time is a good time to catch up on reading. That gives an editorialist a chance to pass on what others are thinking.

For example, the Sikeston, Mo. DAILY STANDARD reported that an ad ran recently in a German newspaper. It said:

"Obliged to leave my apartment, and ordered by my landlord to leave it in exactly the same condition it was when I moved in one year ago. I urgently seek ten mice, several hundred cockroaches, and several thousand bedbugs."

The NATIONAL REVIEW reports that Jaromir Erbek, the new, tough Czech minister of education, sent out a questionnaire on political reliability to all persons employed by colleges and schools.

When he got one letter back, with four letter words slashed across it, he ordered the culprit — the building janitor — fired.

He has since had to hire him back—at a hefty raise.

He couldn't find anyone else willing to stoke the fires.

From the STANDARD, of Cortland, N.Y. was a letter-to-the-editor recently. It read:

"I have long questioned the wisdom of many of our laws and strained interpretation lent to them by our courts. Yesterday, in our City Court . . . a defendent . . . was charged with harassment for allegedy saying 'oink' 'oink' to a uniformed member of our police department.

"He was found guilty after trial. Now, I tell you, there must be something dreadfully wrong with our laws and courts when someone can be convicted of a crime for standing on his hind legs and talking in his own native tongue."

Then there was the story, also in the NATIONAL REPUBLIC, which reported that California State Senator John Harmer wanted to see for himself what the grape strike was all about. So he hired out for a week, anonymously, as a grape picker.

The allegedly intolerable conditions he suffered included a private, air-cooled room, three good meals a day, and an incentive pay scale so liberal even a first-day, clumsy novice picker could earn $2.20 an hour; more experienced workers made up to $2.50.

Grape pickers, he learned, regard Ceasar Chavez, leader of the "grape strike" unionization drive, as an "opportunist" trying to use them, and reject the strike.

Liberals, who would rather eat baloney than California grapes, take no notice.

From our own publication last year:

"A California judge sentenced a rapist to 52 weekends in jail leaving the criminal the rest of the week free. Another man was fined $250 and sentenced to year in jail for attempting to sell a carton of cigarettes without the California tax stamps duly attached."

The theory, we suspect, is that cigarettes may be more dangerous to your health than rape — by the court's measurement.

Back again to NR.

"Organized labor," it reports, "did not like Judge Haynsworth, but it does like Sen. Birch Bayh (D. Ind.)

"In fact, it might be said that labor holds a 'substantial interest' in the Bayh business, having contributed more than $68,000 directly to his last campaign, not counting unreported union spending for staff time, 'political education' campaigns and highly selective voter registration drives.

"Sen. Bayh said that contribution is small in relation to the $800,000 he spent in the campaign. But somehow, when AFL-CIO leaders approached him about fighting the Haynsworth nomination, he seemed to have listtened—and has led the fight against Judge Haynsworth ever since, supplying his Senate colleagues with 'sloppy staff work' allegations about ethically impermissable conflict of interest.

"Sen. Bayh is not guilty of conflict of interest.

"When he is bought, he stays bought."

From the BULLETIN, published by the National Association of Internal Revenue Employees: "Tired of waiting for their agency to put into effect an upgrading of their jobs ordered by the Civil Service April 30, Immigration inspectors charged in Federal Court that the Immigration and Naturalization Service (ironically, a part of the U. S. Department of Justice) had 'refused, failed and neglected' to comply with the Commission's ruling."

Even after the court action it took Congressman (Fla.) Dante B. Fascell's investigation to get I&N off the dime.

It is a warming note that some government agencies have problems like taxpayers.

Ed. Note: Yes, we know. They are taxpayers, too. They pay their taxes with our tax money.

Vacations for All

They can say all they want to about how efficiently welfare funds are being distributed but efficiency may be a state of mind.

We have the word of an informant who is in a position to know and to document it that this week a welfare recipient asked if her welfare check could be forwarded to her.

The forwarding address was Honolulu, where she was going for her "vacation."

Food Stamps Mean More Federal Aid

San Diego County stands to lose approximately $2 million in free federal food stamps for low income residents if the board of supervisors fails to drop the present commodity food distribution program in favor of the food stamp program, Jay Pugh, president of the San Diego-Imperial Grocers Association said.

Pugh said the figure was based on San Diego County's estimated share of the $510 million appropriation recently approved by President Nixon to help wipe out malnutrition during fiscal 1969.

He explained that under the food stamp plan a wider variety of foods — including livestock products, fruits and vegetables — are made available to low income recipients who spend their stamps at neighborhood grocery stores, as opposed to picking up bulky packages of less nutritious food items at county distribution centers.

Pugh pointed out that government surveys show retail food store volume increases on the average of eight percent where food stamp programs are in effect.

Retail food stores in the San Diego area have reported declines of more than 20 percent in volume under the eight-month old commodity food distribution program which, according to Pugh, is being phased out and replaced by the food stamp program.

San Diego is the only large urban county in California still using the commodity food distribution program, according to Pugh.

"Obviously, the use of food stamps has a significant effect on the economy of a community, including levels of taxable income," he said.

An estimated 40,000 residents of San Diego County are currently eligible to receive free food under the commodity distribution program, said Pugh.

Ceremony Set For Replacement Of Judge Hussey

The formal induction ceremony for Judge Ross G. Tharp will be held on Friday, at 4:15 p.m. in the City Council Chambers on the 12th floor of the City Administration Building at the Community Concourse, Judge Charles M. Snell, S.D. Municipal Court said.

All of the Judges of the San Diego Municipal Court will sit in banc for this ceremony, and remarks will be made by William L. Todd, Jr. as president of the San Diego County Bar Association and Don L. Harrington, as president of the Barristers Club of San Diego. Remarks will also be made by Stephen Mulligan as sponsor for Judge Tharp.

Judge Tharp, who was appointed by Governor Reagan to fill the vacancy created by the retirement of Judge Luther N. Hussey, has been sitting as a judge since November 3, 1969.

Deddeh Gives Report

Assemblyman Wadie Deddeh (D-77th Dit.) told the Lemon Grove Rotary club Monday that he could forsee legislation next year by which public monies would not be paid to those who advocate the overthrow of the government.

His reference was to Angela Davis, a University of California teacher who admits to supporting the causes of Communism.

Deddeh was invited to make his "State of the Legislature" talk by Dr. Henry Sortberg, club program chairman.

Col. Tom Clayton, presided.

Holiday Programs Ready

With Christmas but two weeks away, and the number of shopping days and customers' bankbooks both dwindling, the holiday season is in full swing.

Befitting the holiday spirit, area schools will present special programs of seasonal music, with most programs offered for free.

The exception is San Diego State's annual presentation of "The Messiah," scheduled twice Sunday — at 3:15 and 8:15 p.m. There, the public will be charged $1.50.

Other events, all free, include programs at Mt. Miguel High School, Lemon Grove Junior High School, Grossmont College and an event planned by the United Methodist Churches.

The details:

MT. MIGUEL

"Christmas Wonderland", the annual Christmas program, will be presented by the Mt. Miguel High School Choral Department, Monday in the gymnasium.

The 250 members of the concert choir, Girls' Ensemble, Men's Glee, and Girls' Glee, under the direction of Robert Boucher, will combine their voices in "Do You Hear What I Hear?" "Stars Lead Us Ever On," a Sioux Tribal Carol, and the "Hallelujah Chorus" from the Messiah.

Under the direction of Gene Corporan, the school orchestra will accompany the choral groups in the "Hallelujah Chorus." Also appearing will be the Modern Dance Club, under the direction of Mrs. Peggy Palm. The girls will dance to "Sleigh Ride," sung by the Girls' Glee.

The concert choir will sing "Carol Of The Drum," "Jingle-Bell Travelogue," plus two arrangements by Mike Hawes, a member of the choir; "Rudolph The Red-Nosed Reindeer" and "Christmas Song." The Girls' Ensemble will sing several numbers, including selections from "Ceremony Of Carols" by Benjamin Britten.

The Vocal Parents' Club will decorate the gymnasium to create a Christmas atmosphere. "Christmas Wonderland," the music department's annual Christmas gift, is open to the public without charge.

The 50-piece orchestra under the direction of Harry Weisgerber, music director will play several Christmas selections ranging from ancient to modern pieces.

The 45-member choir, under the direction of Miss Relene Keller, vocal director, will sing several selections.

The meeting is sponsored by both the PTA and the music Department. No business meeting is scheduled. The program is open to the public.

Special events of the evening will include pieces by small ensembles and a community sing including familiar Christmas carols.

The new band uniforms will be arriving during Christmas vacation. The fund is still lacking $500.

GROSSMONT

The Music Department of Grossmont College will present a special Christmas program featuring a massed choir of 200 voices at 7:30 p.m. Sunday, in the gymnasium.

The three part program will include "Fantasia on Christmas Carols" by Ralph Vaughn-Williams, a musical interlude by the Grossmont College Brass Choir under the direction of Charles MacLeod, and "A Christmas Story," a contata by Peter Mennin.

John McClellan, tenor, will be the soloist for "A Fantasia on Christmas Carols," and with Emma Small, soprano, will have solo parts in the "Christmas Story."

Accompanying music by the Grossmont College Community Orchestra, augmented by members of the San Diego Symphony Orchestra in cooperation with the Music Performance Trust Fund of the Recording Industry, and the Musicians Association of San Diego County, will be under the direction of Dr. Robert Emile.

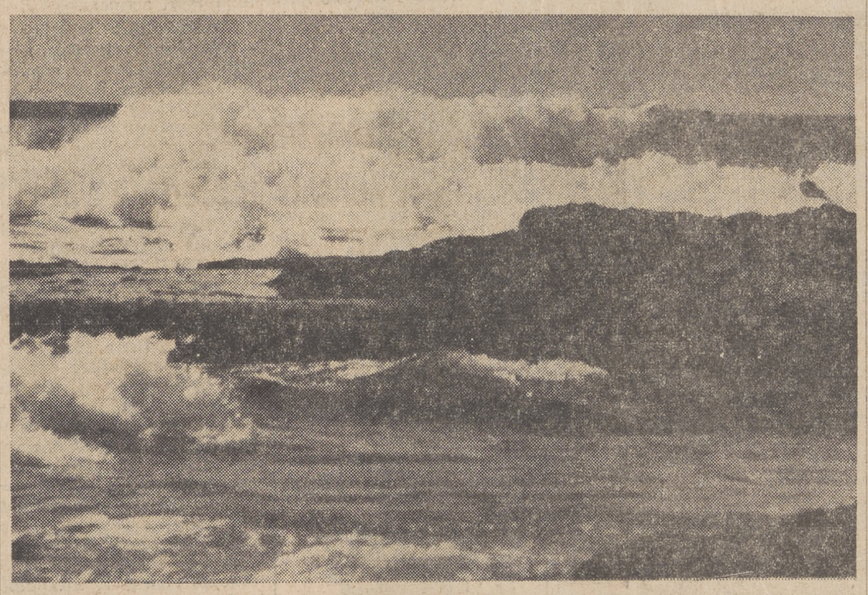
The public is invited to join the Grossmont College for an evening of music in observance of the holiday season. There is no admission charge. Adequate free parking will be available near the gymnasium.

CIVIL THEATER

A Christmas "Gift of Music" to the greater San Diego community will be presented Sunday Dec. 21, at 7 p.m. in the Civic Theater, 2nd and B streets by choirs from United Methodist Churches throughout the city.

Three hundred voices, representing twenty-one churches, will be accompanied by orchestra in the familiar and traditional "Christmas Oratorio" by Camille Saint-Saens and the contemporary cantata, "The Christmas Story," by Texas composer, Ron Nelson.

There is no admission and the general public is invited to attend. An offering will be received.



BIG WAVES — It didn't directly affect the residents of the East County, but big waves battered the San Diego and Pacific coastline all weekend. The waves, fed by a storm far out to sea, often reached heights of 10-feet or better. This scene is at Bird Rock near La Jolla Cove. (Photo by Marc Lieberman)

GAS GIRLS — Pretty Jane Klein and Chris Smith, 18-year-olds from Lemon Grove, lend a touch of beauty to the ordinarily masculine atmosphere of the Gulf Station at Broadway and Buena Vista. Terry Nielsen and Dale Titewald operate the station. The girls have just started this week, in a move the operators hope will "attract" more business.

Apartment Zoning Denied

SAN DIEGO (CNA) — Two requests for apartment zoning locally were denied on Friday by the County Planning Commission.

Both were of three acres and would have been isolated apartment development in single-family developed areas.

Applicant Nouri Mansy planned a 100-unit apartment on the north side of Tyler st. about 400 feet east of Sweetwater rd.

Applicant James A. Eppick's property is on the west side of Osage about 236 feet south of Drexel dr.

Zoning Chief John Cassidy said that if either rezone was granted, it would be difficult to refuse similar requests.

The zone in both cases is R-2-A, but the development is nearly all in single family style, rather than in duplexes.

Miss 'Perfect Smile' Titlist Sought Here

Entry forms are in the mail this week to Lemon Grove-Spring Valley dental assistants and dental secretaries seeking to compete in the fifth annual San Diego County Dental Society-sponsored "Miss Perfect Smile" contest.

The competition, which is held each year as a prelude to National Children's Dental Health Week, also is open to students in dental assisting at Grossmont and Mesa Colleges.

Children's Dental Health Week chairman Dr. Richard Hancock said the contestant chosen as "Miss Perfect Smile" will reign over the 22nd annual observance from Feb. 4 to 10.

In addition, he said the 1970 "queen" also will preside over a Feb. 7 civic luncheon that will include an address by Dr. Paul Saltman, provost of Revelle College on the San Diego campus of the University of California.

Dr. Hancock said more than 1,500 dental assistants and secretaries who are employed by the Dental Society's 650 members are eligible to compete in the fifth annual contest.

CTA Seeks State Aid For Schools

— Nearly 14,000 members of the California Teachers Association employed in San Diego city and county schools have begun circulating petitions for an initiative measure designed to restore state support of public schools to the 50% level of 1953.

The measure is sponsored by the 170,000 member California Teachers Association and the County Supervisors Association of California.

In a joint statement, they outlined the need for such an initiative measure. "California now ranks 44th among states in teacher-pupil ratio. California has slipped to 15th place in expediture per average daily attendance. The state has plunged to 49th place in percentage of increase per pupil expenditure from 1958-59 to 1968-69.

In 1953 the state carried 50% of the cost of financing public schools. Today state support has diminished to 35%. The result has been an ever-increasing tax burden up on the home owner.

The initiative will serve to provide desperately needed funds for California schools while at the same time ease the tax load on homeowners It will increase the homeowners' tax exemption from the present $750 to $1,000 and mandate that the state provide 90% of county welfare costs. Currently counties bear an average of 35% of the welfare expenditures.

Voices Set For Program

A talented young violinist and combined choirs of more than 300 voices will join the San Diego Symphony Orchestra Thursday and Friday in a special holiday program in San Diego's Civic Theater.

Zina Schiff, the youngest pupil of the great Jascha Heifeitz, will play the Mendelssohn Violin Concerto in her second appearance with the San Diego Symphony, which will be under the direction of Assistant Conductor and Concertmaster Robert A. Emile.

The combined choruses of Mira Costa, Grossmont Southwestern, Palomar and San Diego City Colleges will join the orchestra in Ralph Vaughan Williams' Fantasia or Christmas Carols with bari tone John McClellan as soloist

The girls choruses from Crawford, Helix, Hoover and Mt. Miguel High Schools will sing the Ceremony of Carols by Benjamin Britten. Soloists in the Britten work will be soprano Emma Small and alto Delphina Green with harpist Shiela Kornbluth.

Methodist Bishop Asks Prayers for Tragedy

LOS ANGELES — United Methodist Bishop Gerald Kennedy of Los Angeles has called upon all United Methodist churches in his episcopal area to make Sunday a day of mourning for the Vietnamese people massacred in the My Lai incident.

At the same time, Bishop Kennedy has expressed the hope that Christian people everywhere in the country will join in the day of mourning.

Stating that "Nothing has happened to make the evil of war more obvious," the Bishop said the massacre of civilians "is something which reveals that our own American men brought up in our traditions fall victim to war's inhumanity and blood lust."

He called upon his churches to "Let Christmas this year be a day of dedication to the memory of all the men, women and children who have been and are the victims of wars in which we participate."

Bishop Kennedy is episcopal leader of the Los Angeles Area of The United Methodist Church, with 511 churches and more than 260,000 members in Southern California, Southern Nevada, Arizona and Hawaii.

The full text of Bishop Kennedy's letter follows:

Dear Colleague:

My Christmas letter to you this year is a call to make Sunday, December the 14th a day of mourning for the Vietnamese people massacred in the My Lai incident. Nothing has happened to make the evil of war more obvious and Christian people must not let such a thing pass by without expressing their sorrow at our common failure to eliminate war.

I have no doubt that similar instances have taken place many times before both on their side and ours. We are fed on the propaganda of enemy atrocities whenever war breaks out, but massacre of civilians is something which reveals that our own American men brought up in our traditions fall victim to war's inhumanity and blood lust.

I am in hopes that other Christian people in this country will hear about our day of mourning and become a part of it. Let all of us mourn these deaths and pray forgiveness for the guilty and for ourselves. Let us pray especially for all men involved in killing.

Surely the season of the birth of the Prince of Peace is a proper time for us to set aside this day. May the dear Lord help us to do what we have to do to make an end of war in Vietnam and everywhere.

Let Christmas this year be a day of dedication to the memory of all the men, women and children who have been and are the victims of wars in which we participate. And let us realize anew God's miracle in the birth of Jesus Christ. Amen!

Sincerely,
Bishop Gerald Kennedy

The award cited an instance where Ferreter had driven an ammunition truck across a field under heavy enemy fire in the Argonne sector of France. Two soldiers on either side of Ferreter were killed by the shelling.

An officer of Barracks 240, veterans of World War I, discovered that Ferreter had been cited by the government for the act but had not received an award.

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

TAX ANSWERS

F. S. Schmidt, DISTRICT DIRECTOR, INTERNAL REVENUE SERVICE

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. I'm a housewife and have just taken a part-time job in a department store for the holidays. Should I claim my exemption for withholding purposes?

A. If your husband is claiming an exemption for you where he works then you should not claim your withholding exemption. The law generally does not permit two withholding exemptions to be claimed for the same person.

Q. Half of my daughter's college tuition is covered by a scholarship. Is this considered income and will it affect my dependency deduction for her?

A. Most scholarships are not taxable. If your daughter's scholarship happens to be taxable, however, it will be counted as her income, not yours. In addition, scholarships are not part of support and are therefore not considered in determining if you provided more than half your daughter's total support.

To find out whether the scholarship is taxable, check with the person or organization granting it. They may have a ruling from IRS.

Information on the tax status of scholarships may also be obtained by sending a post card to your IRS District Director. Ask for Publication 507, Tax Information on Scholarships and Fellowships.

Q. Can I deduct anything for the fees I paid a real estate appraiser I hired when I sold some property?

A. Yes, those fees can be added to any other expenses you had when you sold your property. Selling expenses should be deducted from the sales price to determine whether there is any gain to report for income tax purposes.

Q. Is there any penalty for not paying estimated tax when you are liable for it?

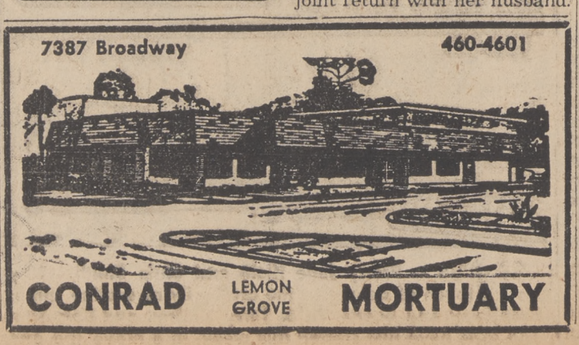
A. Yes, there can be an additional charge if withholding and estimated tax payments do not meet at least 80 percent of your income tax liability for the year. The amount of the penalty depends on the extent to which you have failed to meet this requirement.

The estimated tax system helps people meet their tax obligations on a pay-as-you-go basis if they are not, or are only partly, covered by withholding.

For information, see Publication 505, Tax Withholding and Declaration of Estimated Tax. Send a post card to your IRS district office to obtain a free copy.

Q. I think I will be entitled to claim my aunt as a dependent this year. What records should I keep?

A. Those that show you provided more than one-half of her total support for the year. You should also be able to show that her gross income was under $600 and that if she is married she did not file a joint return with her husband.



LETTERS

Letter Thanks Fire Dept. for Cooperation

Dear Editor:

Enclosed is a copy of a letter from the La Mesa-Spring Valley School District addressed to Battalion Chief Mourning.

At the last regular meeting of the Board of Directors of the Spring Valley Fire Protection District this letter was read and it was decided by the board to send you a copy for reproducing in your newspaper.

Dear Chief Mourning:

On behalf of the La Mesa-Spring Valley School District Preschool Program, please accept our sincerest gratitude for the superior presentation performed by Captain Butler, Engineer Hatch, and Fireman Brugma on Wednesday, November 5, at Trinity Presbyterian Church. The impact of the demonstration and display will undoubtedly have long-term effects on the children in their understanding and appreciation of the vital community services provided by Fire Departments throughout the United States.

The teachers and I were particularly impressed with Fireman Brugma who became concerned over one child's fear of the truck and personnel. He did not hesitate to approach her to determine the cause of her fear. She related to him an early experience which involved a burning house and the noises and sight of men and equipment scurrying about their work to extinguish the blaze. Mr. Brugma successfully reassured her that firemen are community "helpers," a term which the children understand. As proud as you are of your personnel. I'm confident that you would have been overwhelmed with the manner that this gentle and insightful fireman handled a very delicate situation.

Captain Butler and Engineer Hatch were also very patient and skillful in explaining the numerous pieces of apparatus and equipment on a level that is comprehensible to three and four year old children. The classes were delighted and extremely proud that the "firemen visited us."

Thank you again for assigning Captain Butler and his crew to our preschool facility. Your cooperation has been and will continue to be deeply appreciated.

Sincerely,
Elvin Fong,
Coordinator-Preschool Program Planning and Development

Thank you for your cooperation.

Very sincerely,
SPRING VALLEY FIRE PROTECTION DISTRICT

SOCIAL SECURITY RISE OFFSETS TAX CUTS

Dear Editor:

Will you let them kill Santa Claus?

1972 changes in social security taxes will wipe out your proposed income tax savings.

In 1972, a married couple with two children, and having an annual income of $10,000, can expect a tax saving of $95. At the same time, the social security wage base will rise from $7,800 to $9,000 causing a withholding from wages to the tune of $84.60 more than at present. Thus, the total savings would be only $10.40.

This can be corrected if taxpayers will complain to their Senators and Representatives regularly.

Sincerely,
C. C. Moseley,
President
Grand Central Industrial Centre
Glendale, Calif.

Hot Towels

Serving gooey hors d'oeuvres at a holiday party? Then adopt an ancient oriental custom and turn paper towels into little "hot" towels for your guests. Fold a border printed Kleenex towel in thirds to form a long rectangle.

Tren dip it lightly into warm water scented with cologne or lemon juice. Fold the long rectangle in half. Then foll each border-printed edge back over to make an accordion pleated rectangle with the borders showing on each side.

Press the rest of the water out of the towel so that it is merely slightly damp. Make several of the warm little towels and put them conveniently near the appetizers.

Japanese Prints At Southwestern

The Art Gallery at Southwestern College will present an exhibition of authentic Japanese prints by two famous 18th century artists, Hiroshege and Itamaro. The show is scheduled to be on view from December 11 through December 21.

The pieces of Hiroshege include part of his well-known "Tama River" series. Also included is a high quality, first edition print of one of his most famous pieces, "Bridge in Rain".

The Utamaro collection offers contrast to the Hiroshege landscapes with a series of first quality examples of his classic nudes. In addition, the collection includes the delicate and intimate family scenes by Utamaro.

All the prints on exhibit are considered to be of first edition quality, and will give the viewer an excellent opportunity to observe 18th century Japanese Art.

The Gallery hours are from 10 a.m. to 2 p.m., Monday through Thursday, from 6:30 to 9:30 p.m. Thursday evening, and on Sundays from 1 to 5 p.m.

Crosby, Stills, Nash, Young Due Here

Crosby, Stills, Nash & Young, "the best-sounding law firm in rock" will make their long-awaited debut in San Diego Dec. 19 at the Community Concourse Convention Hall, at 8:30 p.m.

The group, which includes the four names plus two more, is made up of parts of several other groups, long ago split asunder.

Crosby, for instance, is David Crosby, one of the original Byrds. He split about the time "Notorious Byrd Brothers" was in the making.

The Byrds continue, but only in name. Just one of the five original musicians remains in the group.

Stills and oung were key figures in the now-defunct Buffalo Springfield. The Springfield, featuring Stills' and Young's song-writing, singing and guitar work, were one of the top bands around two years ago.

Nash is Graham Nash, lead singer and leader of the Hollies, who still carry on. Nash wanted to step out, but the group wanted to play it safe.

Crosby, Stills and Nash began singing together early this year and released an album by the same name which has been well-received.

Young, meanwhile, had his own band, Crazy Horse, and cut two excellent albums. He still plans to move out on his own, although he now joins forces with the others.

The group has another album waiting for release this month, while Young has begun work on another solo album and is planning a tour with Crazy Horse.

That sort of freedom is essential to the workings of this "super-group", which is formed of rock stars who became alienated in other groups, or felt held down.

Some say that a clash of personalities between Stills and Young was the major factor in the Springfield breakup, but the new working arrangement between the two seems to work.

Crosby no longer finds himself as a subservient member to others' taste, and Nash now has room to experiment.

The result of all this is some of the happiest music you'll ever hear.

The band will start out acoustically in concert, and then gradually build up amplification.

Young and Stills handle lead guitar chores, Crosby is on rhythm guitar and Nash will sometimes play organ. All write prolificly.

Dallas Taylor is the group's drummer, while the band has gone through a number of bass players, including ex-Springfield Bruce Palmer.

Greg Reeves, a 19-year-old straight out of Motown now lays down the bass for the group. Taylor is an ex-Clear Light drummer.

Although the Byrds and Springfield were LA groups, this ensembles' head is centered in the San Francisco area.

Symphony Assn. Cancels Season

The Executive Committee of the San Diego Symphony Orchestra Association voted at an emergency meeting Dec. 3 to cancel the remainder of the 1969-70 winter season and terminate its contract with the Musicians Union.

The decision becomes effective at 11:59 p.m., Dec. 13, the day of the first three children's concerts scheduled this year.

"We decided to put on the Dec. 11 and 12 adult concerts and the three children's scheduled for Dec. 13 before cancelling the season," said Robert J. Sullivan, Symphony Association president.

Wayne Film Set

Grossmont College will continue its John Wayne Series when the "Sons of Katie Elder" is screened at 7 p.m. tonight in the Fine Arts Lecture Hall.

The concluding chapter in the life of "Flash Gordon" will accompany "The Sons of Katie Elder." The public is invited to view these two action-packed films. The price of admission is 75 cents with tickets available at the door.

Local Indians Life Portrayed in Exhibit

The life and times of Indian tribes that once lived in the Lemon Grove-Spring Valley area are graphically portrayed in a major exhibit that opens Sunday in Balboa Park's Museum of Man.

Titled "From the River to the Sea," the display presents the material culture of southern California Indians who spoke the Yuman language, focusing on the Diegueno and Mojave tribes.

Described as the first comprehensive exhibit of the lifestyle of these Indians since World War II, the display includes pottery samples, plants and foods, dress and adornment and examples of trade and transportation.

Assistant curator Kenneth Hedges, who assembled the new exhibit, said the collection numbers among its items several rare artifacts, including one of only three Indian rabbitskin robes still known to exist.

He said guided tours of the display, which is housed on the second floor of the California building, will be conducted daily from 10 a.m. to 4:45 p.m. by members of Klee Wyk, the women's auxiliary to the museum.

Art Assn. Has Meet

The Southwestern Artist's Association held their annual Christmas dinner and installation of officers Dec. 2 in the Gallery in Spanish Village, Balboa Park.

This year marks the 20th anniversary of the Association which started with a small group of local business men.

Their objective was to pain' historical scenes and characteristics in and around San Diego, and to maintain realistic art in their exhibits.

This organization has grown to a limited membership of 125.

One and two-man shows are held every two weeks along with juried monthly exhibits by the members. The hours are from noon to 4:30 Wednesday through Sunday and holidays.

Mrs. V. W. McGrew was again installed for her second year as president of the Association.

Navymen Treat Kids

The crew of the U.S.S. Chicago will sponsor a Christmas party today for the students at Angels Unaware Day Center for Retarded Children.

This is the fourth year which the Chicagomen have hosted these children in a party of this type. However, the past two years they were not in San Diego at Christmas time so this party will be a pleasant reunion for many of the students and men.

Chaplain Eugene Davies, Chief William Buffington, Harry West FTM2 and their committee members have planned a busy day for the children. The wives of the Navy personnel did much of the party shopping and gift wrapping and the men will be the ones who are in action.

Hardison's Telespanish

By JAMES HARDISON

HARDISON'S SPANISH

Please tell us about Christmas customs in Spanish-speaking lands and how they celebrate the holiday season. Are there such things as Christmas carols, gift giving, Christmas trees, and Santa Claus in the Spanish-speaking world?

Christmas, "Navidad" is the most important of all the festivities held in the Spanish-speaking world. Christmas carols, referred to as "villancicos" in Spain and "Canciones de Navidad" in Mexico, are very popular and may be heard throughout the season.

Gift exchanging, a popular custom related to Christmas, is practiced by adults in Spain on Christmas Eve. Children receive their "aguinaldos" (gifts) on "El Dia de Los Reyes" (The Day of the Three Wise Men) which falls on the 6th of January. In Mexico, gifts are referred to as "regalos."

Most all of the Spanish-speaking world celebrate "La Misa deu Gallo" (Milnight Mass) on Christmas Eve. Churches that hold masses are usually decorated with "El Nacimiento" (Clay figures representing the Nativity.).

"El arbol de Navidad" (the Christmas tree) is infrequently used in the Spanish-speaking world. The Christmas tree like Santa Claus, is a by-product of the English-speaking world.

Today's practice phrases listed below use some expressions that might be heard in the Spanish-speaking world prior to Christmas. You may wish to learn them with the aid of the recorded voice heard when you dial 276-2762 on your telephone.

Pair Makes Europe Dream Come True

Between otherwise boring college classes, youths will take to day-dreaming of hitch-hiking through Europe, meeting the locals, drinking the wine in France, swimming in the Mediterranean . . .

The dream became a reality for a pair of Lemon Grove youngsters this year. They decided to make it so.

Mark Shumate and Nick Tonner, 19-year-old buddies here, decided to drop out of school for a semester and travel in Europe.

They flew to Frankfurt, Germany in July and began thumbing rides around the ciuntryside.

They hit the big places, Paris, Munich, Copenhagen, Athens, Amsterdam, London, Venice, Naples, but that's not really the whole story.

Mark and Nick made their way around from country to country, grabbing rides from strangers, sleeping under trees at times with little money and no knowledge of foreign languages.

Still, they had little trouble getting where they wanted to go.

"We usually got a ride in about a half hour," Mark recalls. "Although we did have a bad time in Salzburg. There it took us nine hours to get a ride."

The two met other Americans with a van, and shared the ride through several countries.

The lack of a timetable provided ideal travel conditions, they felt. With no schedule, one had more time at each stop.

In all, they spent nearly four months traveling the continent and England. Were they satisfied?

They both want to return as soon as possible. They missed Spain altogether, didn't travel much in England, didn't spend enough time in France, didn't see Sweden, etc. etc.

The ideal time to spend overseas? "A year," they say.

Back to day-dreaming.

Scripps Tour Is Candlelit

Candlelight tours of Scripps Miramar Ranch will be conducted Dec. 14-18, according to Ken Jago, Ranch manager.

The tours will give insight into Christmas traditions at the turn-of-the-century, Jago explained. The mansion has been lavishly decorated in much the same manner which is was when E. W. Scripps made the Ranch his home. Scripps built the mansion during the 1890's. It was headquarters for his newspaper empire and home to the Scripps family until 1968.

The entire home will be illuminated, and the tour hostesses will lead visitors through the mansion's 47 rooms by candlelight. Nearly 1,500 candles will light the way for the tours.

The idea for candlelight tours originated in Williamsburg, Va., where visitors can enjoy candlelight processions through the colonial mansions, he said.

Redwood Waste To Continue

People just don't know what they're missing.

California's coastal redwoods are under daily attack by politicians and sawmills and diminishing rapidly.

Of more than two million acres here when pioneers settled the state, about 90 percent has been cut down.

Conservationists won a small victory last year when a Redwood National Park was created — however, the area was far smaller than asked for. More original redwood forest was left out than was taken in.

The Sierra Club, fighting for every inch of the precious forests, has published a book "The Last Redwoods and the Parkland of Redwood Creek."

The book, consisting of color photographs, focuses on Redwood Creek and its tributaries, site of the greatest remaining park opportunity. The pictures are accompanied by text recounting man's treatment of the giants.

Regrettably, much of the beauty photographed no longer exists — they have been logged since the book was begun.

The club hopes that readers of the book will join in preventing the destruction of the beautiful places that still remain.

Can't Beat City Hall?

Monte Vista High School senior Vicki Pierce proved last week that you can fight city hall.

It started one day when Vicki and six other students were headed home on Interstate 5 between Mission Valley Center and the San Diego Stadium.

They were traveling in the left hand lane going a reported 55 mph when they were stopped by a local highway patrolman who gave Vicki a traffic citation for going too slow in the left hand lane.

Vicki's father, Eliot Pierce, who recently took his bar examination to be a lawyer, went with her to her hearing where she peaded not guilty.

A day in court was set up for her and along with her father representing her were five witnesses in her defense.

Witnesses in her case were Larry Day, Steve Williams,, Ira Kerr, Mike Palmore, Mark Jungjohann and Charles Lunsford, all Monte Vista students.

The officer involved stated that Vicki had no reason to be driving as slowly as she was and that there were no cars in front of her to cause her to slow up.

Three of the passengers in the car then said that they had seen a white car in front of her and that her speed caused no dangerous traffic situations.

The case was then dismissed along with the old adage, "You can't fight city hall."

District Grads Are Better, Says Survey

The average Grossmont High School District graduate who enters San Diego State college or a branch of the University of California does slightly better than the average entering freshman according to a study released this week by Grossmont district officials.

The study also reveals a steady increase in grade-point averages (GPA) of all college freshmen over the past several years.

According to Associate Superintendent Instruction, Stanley McClintic, "376 of the District's 1967-68 graduating class enrolled at San Diego State and had a combined GPA of 2.57 on a cale of 4.0 or about a B-minus average. The combined GPA of all entering freshmen was 2.50, a C+ average."

In a similar study 268 Grossmont District graduates, who attended all branches of the University of California over the past three years, had a combined first semester GPA of 2.63 with 4.0 being a perfect average.

"Approximately 55 to 60 per cent of our high school graduates are going on to some institution of higher learning," said McClintic.

"Something we have found significant about these various grade-point average studies of college freshmen is that they can be directly correlated with what we would expect our students to do based on their scores in the statewide achievement testing program," noted McClintic.

"The District's percentage of students, who enter the various branches of University of California, the state colleges and the junior college system, also seem to be right in line with the proportions of students expected to attend the various institutions as indicated by California's master plan for higher education," McClintic continued.

McClintic thinks the increased grade-point achievement of Grossmont graduate over the past several years ad those of all freshman in the university and college systems reflects the increase in competition in higher education.

"It is indicative of the fact that today's high school graduates face strong competitive pressures in the higher education today," said McClintic.

Mix, AFL Retire With Charger Tilt

Ron Mix retires. Lance Alworth aspires. Hello O.J. Goodbye AFL.

That is a capsule calendar of what will be a memorable pro football Sunday when the San Diego Chargers battle the Buffalo Bills at San Diego Stadium.

Kickoff is 1 p.m.

It is Ron Mix Day, marking the final game for the great 10-year veteran offensive tackle of the Chargers. Mix will be presented with a watch by AFL president Milt Woodward and have his No. 74 jersey become the first retired by the Chargers in ceremonies at halftime.

Alworth has a date with pro football history. One catch extends Bambi's consecutive game receiving streak to 96 and breaks the record of 95 he now shares with Don Hutson, the Green Bay Packer immortal. Hutson has been invited to attend the game.

The Buffalo Bills will be making their firrt visit to San Diego in three years to play their first game in beautiful San Diego Stadium. It will be a homecoming of sort for Buffalo stars O. J. Simpson from USC, Haven Moses from San Diego State and Jack Kemp from the Chargers.

A fierce rival of San Diego in earlier years of the American Football League, Buffalo appropriately returns on the occasion of the final regular-season game in league history. Sunday's final gun will sound on Pacific Standard Time and reverberate as the last shot fired for "the league which came out of the cold."

Next year the Chargers and Bills will be members of the American Conference of the National Football League.

But for new coach Charlie Waller and his fast-finishing Chargers, "next year started for us three weeks ago. Every win this year will help us next year."

Waller was addressing the media after San Diego had raised its season's record to 7-6 by winning its third in a row, 28-18, over the Boston Patriots at San Diego Stadium last Sunday.

Victory over Buffalo (4-9) Sunday would give the Chargers their strongest (four wins) finish since 1960. But Buffalo, under its new coach, John Rauch, also is much-improved recently with two wins in its last four games and a 22-19 loss at Kansas City last Sunday.

Locals Overlooked On Football All-Stars

Mt. Miguel and Helix each placed but one man on this year's edition of the All-Grossmont League football team, while Monte Vista was shut out.

The team was dominated by co-champions Granite Hills and Grossmont, who placed seven and six men respectively on the 23-man offensive and defensive squads.

Santana, tied with Miguel for third, placed six men, while El Capitan had a pair.

Miguel's Don Jackson, a 215-pound senior, was the dream team's center, while Helix' Steve Coover (senior, 160) was named as a defensive back.

The Matadors picked up four slots on the second team, Helix had one and Monte Vista cornered five.

Miguel had Mark Swanstrom (179, junior) at offensive end, and Billy Joe Winchester (230, senior) at fullback. They also had Sal Giacinto (165, senior) at defensive end and Tom Young (160, junior) at defensive back.

The Highlander was Roy Pixon (170, junior) at center.

Monarchs named to the offensive team were end Bob Martin (165, senior), guard Mitch Muhleman (185, junior) and halfback Rob Westcott (201, senior).

On defense, they had tackle Jim Patterson (200, senior) and linebacker Jesse Bower (185, senior).

Ex-Matador Big Hit At Burlingame

Former Mt. Miguel athlete Tom Creighton is writing a success story for himself in northern California and the Matadors probably wish they had him back.

Tom, son of Mrs. Mary Creighton of 1903 Madera st. in Lemon Grove and the late J. S. Creighton, attended Miguel for his freshman and sophomore years before transferring in the summer of 1968 to Burlingame High School, just south of San Francisco.

Since then, he's been successful in football and track, and may be offered a track scholarship to San Jose State, one of the nation's top track schools. He's also interested in Oregon.

Last spring, Tom ran a leg on Burlingame's distance medley team that toured the distance in 10:16.5, the fastest time in the nation at the time and a new meet record.

The race occurred at the Downey Invitational in Modesto.

The youth was a big factor in Burlingame success this fall, too, helping the Panthers to the championship of the Mid-Peninsula League as they tied arch-rival San Mateo 6-6 in a Thanksgiving contest.

In that game, Creighton intercepted two passes to stop San Mateo drives and also broke up a point-after play after the opponents had scored the tying touchdown.

Water Polo Selections From Area

CIF Champion Vista dominated the All-CIF water polo selections, but Mt. Miguel and Monte Vista were well represented.

Vista placed two men on the first team and a pair on the second and had the player of the year in Robert Nelson.

But the runner-up Monarchs had one named to the first team and three more on the second squad.

Rob Morell was on the first seven, while Gordon Dunnill, Brad Julihn and John Krattli were on the runner-up team.

Monarchs given honorable mention included Phil Van der Pres and Mark Hodges.

Miguel placed an athlete on the first team, Don Carlson.

Mathews Paces Griffins

Like night and day, the basketball fortunes have varied for the 1969 edition of the Grossmont Griffins.

On December 3, Grossmont whipped the Naval Training Center 95-87 with Roger Landis hitting 20 points to lead the Griffins. Dave Lower hit for 17 points, Blake Mathews scored 14, and Dan Morrow picked up 13 tallies in the victory.

Saturday night the Griffins traveled to Saddleback, scored their second highest total of the season, but fell apart defensively in losing 102-94.

The one bright spot for the dismal Griffins was Blake Mathews. Blake a 5-10 sophomore from Mt. Miguel ripped the threads for 13 of 18 field goal attempts and 10 out of 11 from the charity line for 36 points.

Mathews also chipped in with five assists to lead the team in that department.

Monarchs Continue To Impress; Win 2

Monte Vista's basketball squad, thought by many to be the best in the school's history, opened its season last week with three victories over non-league opponents.

The Monarchs then traveled to Madison High School and ran the Morse Tigers out of the gym, 81-46.

Up by 20 at intermission, Monte Vista doubled the Tigers' efforts at 54-27 and then rode home to their second straight win.

Jim Bristol, Bob Papciak and Gary Earle all tallied 15 points each while Bill Belander hit for 11.

Monte Vista was then hosted by Madison at Santana High School in a battle which saw the Monarchs as victors once more, 70-61.

Basically a running ball club, the Monarchs didn't move the ball well against the Warhawks but were strengthened by Bill Belander and Jim Bristol's hot offensive streaks.

Belander chalked up 13 of his 27 points in the first period of play while Bristol tallied nine of his 25 in the final quarter.

The Monarchs will face their toughest match thus far tomorrow night when they do battle with the Castle Park Trojans at Helix High School.

After this weekend's games, Bristol leads Monarch scorers with a 20.3 average. Belander holds down a 16.3 average.

Monarchs Pick Up Where They Left Off

Highly-regarded Monte Vista, rated by experts as second only to Helix in East County basketball circles, made an auspicious debut last week, trouncing Poway, 82-57.

The Monarchs, the only team to beat Helix last year, used even scoring to run up their total.

The team scored 22, 20, 22 and 18 points in each of the four quarters.

Individually, forward Jim Bristol showed the way with 22 points, while guard Gary Earle pumped in 21.

Bill Belander and Bob Papciak each scored 11 at the Monarchs passed scoring honors around.

Dan Heien had 9 and Jim Krattli had 6 for the winners.

The Monarchs were the surprise of summer league basketball, winning their division and advancing to the semi-finals before losing to Helix by a single point. The Highlanders went on the championship.

They started a team of Bristol (6-3), Papciak (5-10), Heien (6-2), Belander (6-3) and alternated Earle (6-1) and Krattli (6-3).

Krattli was a sometime starter last year while Earle is a new prospect. All others were varsity starters last season. Last year's edition started slow but finished in a blaze, winning 6 of their last 8 games.

The Monarchs will play a double-header this weekend, facing first Castle Park and then Chula Vista, two of the Metro League's best teams.

Scotties Power From Gate With Two Wins

Helix High's basketball team has started out like the favorite for the county championship it's been talked up to be.

Usually a jinx, the high preseason ranking apparently didn't faze the Highlanders, who opened their season last week with solid back-to-back wins over Madison and Morse.

Standout center Bill Walton, who stretches around 6-10 ringed 24 points one night and 30 the next, to leave his season's average at a neat 27.0.

The Scots used third quarter bursts in each game to manhandle their opponents.

A 24-point out-pouring put the Scots well ahead of Madison in their opener Dec. 2, and they coasted to win it, 74-60, over a team that was ranked as high as 7th in the county in pre-season ratings.

A 27 point explosion enabled the Helix quintet to put down Morse the next night, 78-49.

Besides Walton, a big reason for the Helix showing was 5-11 guard Mike Dupree.

He scored 30 points in the opener, although only 28 will count (he scored a bucket for Madison) and notched 22 in the follow-up. His average: 25.0.

Walton, rated as perhaps the best player in the county this year, (some say of all-time) dominated each game with his scoring, defense, rebounding and intimidation.

The lanky center pulled down 24 rebounds in the Madison contest, although pitted against one of the best front lines in the county.

No other Highlander has scored in double figures, and the rest of the team's scoring is led by guard Randy Madsen (6.0) and forward Butch Paddock (6.0).

Reserve forward Mike Henz is scoring at a 5.0 clip, while regular forward Dan Coleman is at 4.5.

The Highlander team was scheduled to play their first home game of the season Tuesday afternoon when they hosted Lincoln in what many writers have tabbed as a play-off preview.

In some pre-season ratings, Lincoln has been rated the second-best quintet in the area, a notch behind Helix.

Hilltop, one of the better Metro League teams, visits Helix in an 8:30 p.m. clash tomorrow night.

Harrier Stars Dominated by Area Teams

Local cross country teams dominated this year's edition of the Grossmont League all-star team, gaining all but two of the ten spots.

Helix' Ed Mendoza, a junior, and the CIF champion, was named runner of the year. Mendoza lost to no county runners this season.

The Highlanders, CIF champions, also took three other spots on the all-league team, while Mt. Miguel and Monte Vista had a pair each. Miguel and the Monarchs were 2nd and 3rd in CIF competition.

Besides Mendoza, Helix placed Dennis Rodgers, Robin Schultz and Curt Smith on the team. Those three, all seniors, gained the top ten in class AA finals.

The Monarchs placed a pair of underclassmen on the team, including ace runner Tom Lux. Lux, a junior, was third in AA finals and has lost only to Mendoza among league rivals. Sophomore Rick Duenez also was named.

Miguel was represented by senior Gary Heiserman, a standout all season, and late-season surprise Joe Stubbs. Stubbs is a sophomore.

The other two spots on the team went to El Capitan's Steve Israel and El Cajon's Leo Nicolet, first and third in Class A Finals.

Area Skaters In LA Meet

San Diego will be represented by a record number of entries in the Southwest Pacific figure skating championships at Culver City this weekend and next.

Local residents entered in the meet are Paige Rauch of Spring Valley and Jan Shinski of Lemon Grove, both of them winners in the local club's annual competition in October.

Thirteen San Diego Figure Skating Club members, twice as many as last year and an all-time high for the local club will compete in the official U. S. Figure Skating Association regional meet. It is qualifying for the Pacific Coast sectional championships at Berkeley in January.

For the past few years Southwest Pacific has been the largest of nine USFSA regional meets that start figure skaters up the ladder to national, world and Olympic competition. Approximately 200 skaters representing Phoenix, Tucson, San Diego and 13 clubs in the Los Angeles area will compete.

New Players Seen As Help To Padres

The Padres took their time in the trading mart but when they moved, they dealth themselves a ton of talent.

In two separate trades consumated within 24 hours at the major league winter meetings in Florida, the Padres acquired five players, a pair of infielders, a catcher and two hurlers, and parted with two pitchers.

Announcement first was the swap that sent Joe Nieko to the Detroit Tigers for second baseman Dave Campbell and pitcher Dobson.

Then the Padres promptly pounced on a three-for-one exchange with the San Francisco Giants, acquiring third baseman Bob Etheridge, catcher Bob Barton and pitcher Ron Herbel for reliefer Frank Reberger.

With Campbell and Etheridge the Padres appear to have more than satisfied what was a gnawing need for infield help.

"Campbell figures to be our regular second baseman," Gomez said, "and Etheridge is the leading candidate to play third base."

Considering that the Padres also acquired two established pitchers and a catcher with proven major league experience, Gomez was ecstatic over the bartering ability of Padre president Buzzie Bavasi.

"I don't know how Buzzie makes these deals," Gomez said. "He's got to be some kind of magician."

Bavasi, confident that the Padres have improved themselves immeasurably, evaluated the trades this way:

"We acquired five players and gave up only two. Three of the five I believe are better players right now than the two we lost. And all five have better potential to help us."

Gomez said that Dobson, who last year worked in 49 games for the Tigers, primarily in relief with 9 saves (won 5 lost 10, 3.60 ERA), would replace Niekro in the Padres' starting rotation.

The right-handed Dobson was the workhorse of the Tiger drive during their pennant winning tournament of 1968 and during three major league seasons has fanned 191 batters in 279 innings.

Fish, Game Assn. Plans Meet Tonight

San Diego County Fish and Game Association will put the finishing touches on another 12 months of conservation efforts tonight when it holds its Annual Meeting in the Balboa Park War Memorial Building, starting at 7:30 p.m.

Of primary interest will be the annual election of officers and board members. Lee Rodwell, who is stepping down after serving two years as Association president, will be replaced by Sam Weisenberg, who is running unopposed. Weisenberg himself has just completed two years as president of the County Wildlife Federation.

Most interest lies in the race for the seven vacancies on the 14-man board of directors. Fifteen men seek election. They include: Charles Carter, Bob Cook, Paul Cooper, F. Ferraro, Walt Foster, Dayton Frost, Charlie Hoffman, Frank Johnson, John Keating, Ken Marshall, Bill Pritzl, Ed Steiner, Allen Schweitzer, Bob Wagner, and Bill Weichert.

Wildlife movies will feature the entertainment program and the public is invited to attend, president Rodwell, says.

SDS Cagers Win Tourney

San Diego State's basketball team got the ball rolling on its 1969-70 season last weekend by winning its own Aztec Invitational Tournament.

The road to victory wasn't an easy one as in three games State's largest winning margin was only seven points. And things don't look any easier for this week.

New coach Dick Davis' Aztecs will test San Fernando Valley State College Friday evening and then host UC Irvine Saturday night. Both tilts are set for 8 p.m. in Peterson Gym.

Davis, who's used to fielding winning teams, saw his "New Look" Aztecs come through with three big wins during the four-day tourney.

State opened with a 71-64 triumph over Pomona College and then stopped the University of California at San Diego, 70-65, in a semi-final tiff. The Aztecs then wrapped up the title with the 92-87 win over darkhorse Tahoe College.

Pacing State was the one-two combination of Von Jacobsen, last year's leading scorer as a sophomore, and newcomer Joe Lavender.

Jacobsen pumped in 62 points in the tourney and was selected as the meeting's Most Valuable Player. Lavender netted 61 points and was named to the All-Tourney team.

Both came through with great performance in the championship game with Jacobsen scoring 33 and Lavender 21. In addition, Jacobsen tied an Aztec record by sinking 15 free throws.

Connecticut leads in per capita income at $4,256.

Aztecs Finish At 11-0

San Diego State's somewhat injury-plagued Aztecs put the finishing touches on a fine season last Saturday by toppling Boston University in the Pasadena Bowl, 28-7.

The win capped an unbeaten season for State as it raced to an 11-0 mark, its third undefeated campaign in the last four years. In addition, the triumph was also State's third Bowl win in the last four years having won back-to-back appearances in the 1966 and 1967 Camellia Bowls.

"Our defense played just a tremendous game," commented head coach Don Coryell. "They really did a job for us.".

Coryell was particularly pleased with the showing of the offense against Boston's highly publicized defense. In all, SDS ran up 485 yards including 191 yards on the ground.

Dennis Shaw got the Aztecs off to a 14-7 lead before he departed and Sipe added two more.

On the game, Shaw hit on 16 of 29 for 219 yards while Sipe was 2 for 3 for 75 yards including a victory-clinching 57 yard bomb to John Featherstone.

Featherstone was tabbed as the game's Outstanding Offensive Player. He caught two TD passes, both of which were key plays. The first was the go-ahead score and the second was the clincher.

Capt. James Cook was the first white man to visit Hawaii.

COMPETES — Paige Rauch of Spring Valley, currently San Diego county's top figure skater, will compete in the Southwest Pacific regional championships being held at Culver City this weekend and next. The Monte Vista High School senior has passed six of the eight tests required by the U. S. Figure Skating Association for a gold medal.

Motorists Urged For Early Pay

Vehicle owners who renew their 1970 registrations will get a one-by-two-inch orange sticker — not a new blue and gold license plate, Department of Motor Vehicles Directon James W. Chapman emphasized.

"The transition from the yellow-on-black to the gold-on-blue plates is geared to the rate of replacement of old cars by new and out-of-state cars," he explainod. "Seven years or longer may pass before the great bulk of vehicles carry blue plates."

Chapman urged all motorists to make early registration renewal their first order of business. "February 4th is the legal deadline, but fortunately the vast majority of vehicle owners don't wait that long," he commented.

USIU Honors Fall Athletes

Athletes in Cross Country Track and Football were honored by United States International University, Dec. 4, at a banquet held in the Garden Room of the Le Baron Hotel.

Eight Cross Country letters and four special awards were presented by Dr. Crakes, Cross Country Track coach.

Lettermen are: Kenth Anderson, James Peabody, Darryl Simmons, Daniel Ungricht, Gary Webber, James Oliver, Jon Wickstrom and O. J. Romo.

Oliver received the award as Outstanding Performer and Peabody the Captain's Award. The award for Most Improved Athlete went to two runners, Kenth Anderson and Darryl Simmons.

Youths Revive Ancient Art

By CHUCK CURTIS

Marleedon Candles, 8127 Broadway, Lemon Grove, is under new management.

It all started about a year ago when Gary Carver took a Christmas job at the 7-year-old candle shop. He said he was amazed at the things one could do with wax and proceeded to tell the owner he was going to buy him out.

Two months ago Gary and his partner Larry Greene came up with the money and took over Marleedon Candles.

In the interim Gary had done some serious study of the subject. He discovered that candle making is one of the oldest arts. Cone shaped candles are depicted in ancient tombs at Thebes and candles of the tapered design have been unearthed at Crete and date back to the first Minoan civilization, about 3000 B.C.

The ancient Romans had candles and tapers of tallow and wax.

During the middle ages candle making was a family affair with only the very rich able to afford wax candles. It was during this period, referred to as the Renaissance, that the first Candlemaker's Guild was formed. The members went from house to house, making candles.

In the 1800's the Industrial Revolution began and, like most other businesses, candle-making became an automated machine process. The man responsible was Joseph Morgan, who in, 1834, invented a machine that produced molded candles.

With the advent of relatively inexpensive parafin, the wax candle was soon available to all, but the time honored are of hand crafting beautiful candles was fast fading.

In 1969 two enterprizing San Diego youths, each 18, have taken a giant step toward restoring the art.

Gary and Larry hand-craft 101 different candle figures including fish, elephants, swans, cars, Tikis, Buddhas, cactus plants, baby bottles, Santas, seahorses, owls, lanterns, and assorted geometric forms. They also produce a variety of scenes on block candles, scenes such as the Last Supper, a Cross, a ballerina and many more.

Since taking over the business the young men have tripled the wholesale volume and seen the retail business increase about 30 percent each week, according to Gary.

The general acceptance of this nearly lost art of handcrafting candles has been most encouraging to the youthful businessmen. They are so delighted with public attitude that they have thrown open their shop and are most pleased to take anyone interested on a tour of the facility.

There you can watch them cast some of the beautiful designs such as their floating flowers, or you may watch them blend the colors for a new design.

In addition to the handcrafted candles, Marleedon carries a line of imported candles, incense, candle holders, cards other gift items.

Course Groomed For Williams Play

SAN DIEGO — The "Open course" at Torrey Pines GC should be in excellent condition for the third annual Andy Williams San Diego Open, Jan. 27 - Feb. 1, according to Stebe Horrell, general chairman.

Horrell, and Norrie West, executive director, inspected the course with Wade Cagle PGA tour official; Don Makie, City Superintedent; and Fred Maheu, Torrey Pines course manager.

Cagle outlined the specifications for, cutting of fairways and tremendous details of course conditioning that the PGA desires.

"Actually, Torrey Pines already is being groomed for the Open. Fairways are being narrowed by about a third and the rough is growing. The back half of tees soon will be roped off. The rough will be cut to two depths, two inches for the first 12 feet off the fairway, and 3½ inches from there on. Fairways will be cut to about ½ inch, slightly shorter than they normally are," Horrell said.

Cagle was pleased with the condition of the course and the fact that Makie, Rombould, and Maheu already were grooming the Open course for the third annual AWSDO.

"You'd be surprised. Some courses aren't touched until two weeks before the tournament.

Van Deerlin Forsees Cut In Income Tax

WASHINGTON — Rep. Lionel Van Deerlin, D-San Diego, predicted this week that Congress will increase the personal income tax exemption from $600 to $700.

The Senate last week voted to boost the exemption by $200, over a two-year period. An earlier House version of the tax reform-relief legislation, while making no change in the exemption, does call for a combination of higher standard deductions and reduced tax rates to ease the tax burden on low and middle income families.

Van Deerlin pointed out that the next move on the complex tax package, following final action on the Senate bill, will be up to a House-Senate conference.

He said the House conferees drawn from the membership of the tax writing Ways and Means Committee, are unlikely to go along completely with the Senate amendment raising the exemption.

"I would anticipate that the conferees will finally agree on a compromise figure of about $700, the midway point between the existing exemption and the $800 called for by the Senate," the San Diego Congressman said.

The main argument against upping the exemption comes from the Treasury Department, which says it could not afford the resulting loss of revenue. Proponents argue that an increase is long overdue; the exemption has been frozen at $600 for the past 21 years.

Van Deerlin noted that even though key members of the Ways and Means Committee have been opposed to any change in the exemption, at least 223 House members, a majority, have gone on record as favoring an increase to $800 or more.

Van Deerlin said savings to taxpayers will be significant even if the House-Senate conference compromises on an exemption of $700.

"A family of four in the 20-percent tax bracket, for example, would still realize savings of $80 a year if the exemption were raised by $100," he said.

Padres Season Opens April 7

SAN DIEGO — The Padres will open their 1970 season in San Diego Stadium on April 7 against the Atlanta Braves, it was announced.

The Padres also announced that for the benefit of their fans two major changes at home games would be effected next year.

All night contests will start one-half hour earlier at 7:30 and Ladies Nights — and Ladies Days — would be switched from Wednesdays to Saturdays.

E. J. "Buzzie" Bavasi, Padre president, said that the earlier starting time for night games had been requested in a poll of fans conducted late last season.

"Sentiment of fans as indicated in the poll was heavily in favor of an earlier start for night games, particularly among fans with youngsters," Bavasi said. "And the same was true for the change in Ladies Nights to Saturdays."

Bavasi said that the Padres will continue to honor Senior Citizens at every Sunday home game.

"In our second season we're going to make every effort possible to be people-pleasers," Bavasi said.

The attractive Padre home schedule for 1970 features 10 Saturday and 11 Sunday dates as well as six doubleheaders including an early season twinbill against the World Champion Mets, a twinight skirmish against the slugging Reds and a Labor-Day holiday bargain pair against the Astros.
